

**REMARKS**

By this Amendment, the specification and abstract have been amended to be in proper form. A substitute specification and a marked-up version showing the changes made are attached as Exhibits A and B, respectively. No new matter has been added.

Claims 1-5 have been amended, and new claims 6-20 have been added. Accordingly, claims 1-20 are pending examination. The amendments to the claims have not been made to define over the prior art, but have rather been made to present claims in a better form for examination and/or to remove unnecessary limitations. The new claims have been added to more fully cover the scope of the present invention.

In view of the above amendments, Applicants believe the pending application is in condition for allowance. Notification of which is respectfully requested.

Dated: August 16, 2006

Respectfully submitted,

By Richard LaCava
